4 First-aid measures

Description of first aid measures

|                                   |                                                                                                                                                                                                                                                                                                     |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | Under normal daily operation and use, there is no need to take emergency measures.                                                                                                                                                                                                                  |
| <b>Eye contact</b>                | Under normal circumstances, there is no such contact hazard. If you come into contact with the debris or dust produced by the product, please immediately lift your eyelids and rinse your eyes with flowing water or normal saline for more than 15 minutes. If necessary, seek medical attention. |
| <b>Skin contact</b>               | Normally not applicable, this product is harmless when in contact with the skin.                                                                                                                                                                                                                    |
| <b>Ingestion</b>                  | Clean your mouth, do not induce vomiting, and seek medical attention immediately.                                                                                                                                                                                                                   |
| <b>Inhalation</b>                 | Under normal circumstances, there is no such contact hazard. If inhaling dust generated during processing, move to a place with fresh air. If breathing is uncomfortable, seek medical attention.                                                                                                   |
| <b>Protecting of first-aiders</b> | No special protection is required.                                                                                                                                                                                                                                                                  |

**| Most important symptoms/effects, acute and delayed**

|          |                        |
|----------|------------------------|
| <b>1</b> | Please see section 11. |
|----------|------------------------|

**| Indication of any immediate medical attention and special treatment needed**

|          |                                                                             |
|----------|-----------------------------------------------------------------------------|
| <b>1</b> | Targeted treatment should be carried out based on the symptoms that appear. |
|----------|-----------------------------------------------------------------------------|

**5 Fire-fighting measures****| Extinguishing media**

|                                       |                                                                                         |
|---------------------------------------|-----------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Use water, alcohol resistant foam, dry powder or carbon dioxide to extinguish the fire. |
| <b>Unsuitable extinguishing media</b> | There is no restriction on the type of extinguisher which may be used.                  |

**| Specific hazards arising from the substance or mixture**

|          |                                      |
|----------|--------------------------------------|
| <b>1</b> | There are no known specific hazards. |
|----------|--------------------------------------|

**| Advice for firefighters**

|          |                                                                                                                       |
|----------|-----------------------------------------------------------------------------------------------------------------------|
| <b>1</b> | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| <b>2</b> | Fight fire from a safe distance, with adequate cover.                                                                 |
| <b>3</b> | Spray water to cool the container until the fire is extinguished.                                                     |

**6 Accidental release measures****| Personal precautions, protective equipment and emergency procedures**

|          |                                                                                                                                                                                                                       |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1</b> | Under normal circumstances, there are no special requirements. Avoid contact with eyes and inhalation of dust, and pay attention to ventilation when using. Regarding personal protection, please refer to Section 8. |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**| Environmental precautions**

|          |                                                            |
|----------|------------------------------------------------------------|
| <b>1</b> | Prevent entry into sewers, surface water, and groundwater. |
|----------|------------------------------------------------------------|

**| Methods and materials for containment and cleaning up**

|          |                                                                                                                                                                                                              |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1</b> | Under normal circumstances, there are no special requirements. If the product is scattered on the ground, please collect it in a timely manner and arrange to store it in a suitable container for disposal. |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**7 Handling and storage**

Precautions for safe handling

|                                                   |                                                                                               |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------|
| ◆ Protective measures                             |                                                                                               |
| 1                                                 | Provide sufficient ventilation to avoid inhaling combustion smoke.                            |
| 2                                                 | Keep away from sources of fire and heat, and smoking is strictly prohibited in the workplace. |
| 3                                                 | Prevent the generation and accumulation of dust.                                              |
| 4                                                 | Wash hands thoroughly after operation.                                                        |
| ◆ Measures to prevent fire                        |                                                                                               |
| 1                                                 | Keep away from heat/sparks/open flames/ hot surfaces.                                         |
| ◆ Measures to prevent aerosol and dust generation |                                                                                               |
| 1                                                 | Avoid formation of dust.                                                                      |
| 2                                                 | Provide appropriate exhaust ventilation at places where dust is formed.                       |
| ◆ Advice on general occupational hygiene          |                                                                                               |
| 1                                                 | Wash hands and face after using of the substances.                                            |
| 2                                                 | Replace the contaminated clothing immediately.                                                |

Conditions for safe storage, including any incompatibilities

|   |                                                                  |
|---|------------------------------------------------------------------|
| 1 | Keep containers in a dry, cool and well-ventilated place.        |
| 2 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 3 | Store away from incompatible materials and foodstuff containers. |

Specific end use(s)

|   |                                                                                      |
|---|--------------------------------------------------------------------------------------|
| 1 | In addition to use mentioned in the first parts, unforeseen other specific end uses. |
|---|--------------------------------------------------------------------------------------|

8 Exposure controls/personal protection

Control parameters

| Occupational Exposure limit values |                                                                                                                                                   | There are no occupational exposure limits applicable to products or components. |                         |                        |                           |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|-------------------------|------------------------|---------------------------|
| ◆ Biological limit values          |                                                                                                                                                   |                                                                                 |                         |                        |                           |
| Biological limit values            |                                                                                                                                                   | No relevant regulations.                                                        |                         |                        |                           |
| ◆ Monitoring methods               |                                                                                                                                                   |                                                                                 |                         |                        |                           |
| 1                                  | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |                                                                                 |                         |                        |                           |
| 2                                  | GBZ/T 300.1~GBZ/T 300.160-2017; GBZ/T 300.161~GBZ/T 300.164-2018 Determination of toxic substances in workplace air (Series standard).            |                                                                                 |                         |                        |                           |
| ◆ Derived No effect level (DNEL)   |                                                                                                                                                   |                                                                                 |                         |                        |                           |
| Component                          | Route of exposure                                                                                                                                 | DNEL for Workers                                                                |                         |                        |                           |
|                                    |                                                                                                                                                   | Acute effects(local)                                                            | Acute effects(systemic) | Chronic effects(local) | Chronic effects(systemic) |
| All components                     | Inhalation                                                                                                                                        | No data available                                                               | No data available       | No data available      | No data available         |
|                                    | Oral                                                                                                                                              | No data available                                                               | No data available       | No data available      | No data available         |

|  |        |                   |                   |                   |                   |

◆ Predicted No Effect Concentration (PNEC)

|                                                 |                           |
|-------------------------------------------------|---------------------------|
| <b>Predicted No Effect Concentration (PNEC)</b> | No information available. |
|-------------------------------------------------|---------------------------|

| Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |

| Personal protection equipment

|                                 |                                                                                                                                                                                          |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General requirement</b>      | No special requirements, please see the description below.                                                                                                                               |
| <b>Eye protection</b>           | Normally, eye protection is not required. If exposed to steam/dust during production, chemical goggles should be worn.                                                                   |
| <b>Hand protection</b>          | Normally, hand protection is not required.                                                                                                                                               |
| <b>Respiratory protection</b>   | Under normal circumstances, respiratory protection is not required. However, if the concentration of dust in the air is high, it is recommended to wear a self-priming filter dust mask. |
| <b>Skin and body protection</b> | Normally, skin and body protection are not required.                                                                                                                                     |

**9** Physical and chemical properties and safety characteristics

| Physical and chemical properties

|                                                    |                                                        |
|----------------------------------------------------|--------------------------------------------------------|
| <b>Physical state</b>                              | Solid linear                                           |
| <b>Color</b>                                       | Natural wood color                                     |
| <b>Odor</b>                                        | Unique fragrance                                       |
| <b>Odor threshold</b>                              | No information available                               |
| <b>pH</b>                                          | Not applicable                                         |
| <b>Melting point/freezing point(°C)</b>            | No information available                               |
| <b>Initial boiling point and boiling range(°C)</b> | No information available                               |
| <b>Flash point(Closed cup,°C)</b>                  | No information available                               |
| <b>Evaporation rate</b>                            | Not applicable                                         |
| <b>Flammability</b>                                | Combustible                                            |
| <b>Upper/lower explosive limits[% (v/v)]</b>       | Upper limit: Not explosive; Lower limit: Not explosive |
| <b>Vapor pressure</b>                              | Not applicable                                         |
| <b>Vapor density(Air = 1)</b>                      | Not applicable                                         |
| <b>Relative density(Water=1)</b>                   | No information available                               |
| <b>Solubility</b>                                  | Insoluble in water                                     |
| <b>n-octanol/water partition coefficient</b>       | No information available                               |
| <b>Auto-ignition temperature(°C)</b>               | No information available                               |
| <b>Decomposition temperature(°C)</b>               | No information available                               |

|                          |                          |
|--------------------------|--------------------------|
| Viscosity                | Not applicable           |
| Explosive properties     | Not explosive            |
| Oxidizing properties     | Not oxidizing            |
| Particle characteristics | No information available |

10 Stability and reactivity

| Stability and reactivity

|                                    |                                                                                                      |
|------------------------------------|------------------------------------------------------------------------------------------------------|
| Reactivity                         | Under normal usage conditions, there are no known hazardous reactions.                               |
| Chemical stability                 | Stable under proper operation and storage conditions.                                                |
| Possibility of hazardous reactions | No information available.                                                                            |
| Conditions to avoid                | High temperature, open flame, and humid environment.                                                 |
| Incompatible materials             | Strong oxidant                                                                                       |
| Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

11 Toxicological information

| Acute toxicity

| Component      | LD50(oral)       | LD50(dermal)             | LC50(inhalation,4h)      |
|----------------|------------------|--------------------------|--------------------------|
| All components | >5000mg/kg (Rat) | No information available | No information available |

| Carcinogenicity

| Component           | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|---------------------|--------------------------------------------|------------------------------|
| Natural wood powder | No information available                   | No information available     |
| Plant sticky powder | No information available                   | No information available     |

| Endocrine disrupting properties

|                                 |                                                                                |
|---------------------------------|--------------------------------------------------------------------------------|
| Endocrine disrupting properties | This product does not contain substances with endocrine disrupting properties. |
|---------------------------------|--------------------------------------------------------------------------------|

| Others

| Incense stick                 |                                                                  |
|-------------------------------|------------------------------------------------------------------|
| Skin corrosion/irritation     | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation | Based on available data, the classification criteria are not met |
| Skin sensitization            | Based on available data, the classification criteria are not met |
| Respiratory sensitization     | Based on available data, the classification criteria are not met |
| Reproductive toxicity         | Based on available data, the classification criteria are not met |
| STOT-single exposure          | Based on available data, the classification criteria are not met |
| STOT-repeated exposure        | Based on available data, the classification criteria are not met |
| Aspiration hazard             | Based on available data, the classification criteria are not met |
| Germ cell mutagenicity        | Based on available data, the classification criteria are not met |

|                                   |                                                                  |
|-----------------------------------|------------------------------------------------------------------|
| Reproductive toxicity(additional) | Based on available data, the classification criteria are not met |
|-----------------------------------|------------------------------------------------------------------|

12 Ecological information

| Acute aquatic toxicity

|                        |                           |
|------------------------|---------------------------|
| Acute aquatic toxicity | No information available. |
|------------------------|---------------------------|

| Chronic aquatic toxicity

|                          |                           |
|--------------------------|---------------------------|
| Chronic aquatic toxicity | No information available. |
|--------------------------|---------------------------|

| Persistence and degradability

|                               |                           |
|-------------------------------|---------------------------|
| Persistence and degradability | No information available. |
|-------------------------------|---------------------------|

| Bioaccumulative potential

|                           |                           |
|---------------------------|---------------------------|
| Bioaccumulative potential | No information available. |
|---------------------------|---------------------------|

| Mobility in soil

|                  |                           |
|------------------|---------------------------|
| Mobility in soil | No information available. |
|------------------|---------------------------|

| Results of PBT and vPvB assessment

|                                    |                                                                |
|------------------------------------|----------------------------------------------------------------|
| Results of PBT and vPvB assessment | This product does not contain substances that are PBT or vPvB. |
|------------------------------------|----------------------------------------------------------------|

| Endocrine disrupting properties

|                                 |                                                                                |
|---------------------------------|--------------------------------------------------------------------------------|
| Endocrine disrupting properties | This product does not contain substances with endocrine disrupting properties. |
|---------------------------------|--------------------------------------------------------------------------------|

13 Disposal considerations

| Disposal considerations

|                 |                                                                                                                                                                                                        |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste chemicals | Before disposal should refer to the relevant national and local laws and regulation. Recycle and reuse as much as possible. If it cannot be recycled, incineration method should be used for disposal. |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                        |                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Contaminated packaging | After emptying the packaging, it should be kept away from heat and fire sources. If possible, it should be returned to the supplier for recycling. |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|

|                          |                                                              |
|--------------------------|--------------------------------------------------------------|
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging. |
|--------------------------|--------------------------------------------------------------|

## | Disclaimer

This Safety Data Sheet (SDS) was prepared according to REACH Regulation. The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.

## | Further information:

This information is based upon the present state of our knowledge. This SDS has been compiled and is solely intended for this product. The information of section 3 and section 9 is provided by the company listed in section 1. Other information is from authoritative database and expert assessment.
